Portfolio Resources Group, Inc.

Notes to Financial Statements December 31, 2018

1. Organization and Business

Portfolio Resources Group, Inc. (the "Company") is a corporation formed under the laws of the state of Florida. The Company is a broker-dealer registered under the Securities Exchange Act of 1934 ("SEC") and is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA"), the Securities Investor Protection Corporation ("SIPC") and the Municipal Securities Rulemaking Board ("MSRB"). Consequently, its record keeping is in accordance with the rules and regulations prescribed by these agencies.

2. Summary of Significant Accounting Policies

Basis of Presentation

These financial statements were prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Revenue Recognition

On January 1, 2018, the Company adopted ASU 2014-9, Revenue from Contracts with Customers (Topic 606) ("ASU 2014-9") under the modified retrospective method. ASU 2014-9, and related amendments, provide comprehensive guidance for recognizing revenue from contracts with customers. Revenue is recognized when the entity transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. The guidance includes a five-step framework that requires an entity to: (i) identify the contract(s) with a customer, (ii) identify the performance obligations in the contract, (iii) determine the transaction price, (iv) allocated the transaction price to the performance obligations in the contract, and (v) recognize revenue when the entity satisfies a performance obligation.

The adoption of ASU 2014-09 did not materially change the Company's historical pattern of recognizing revenue for commissions earned on securities transactions, administrative service fees and other revenue. The Company has applied the guidance in ASU 2014-09 only to contracts that are not completed as of January 1, 2018. The recognition and measurement of revenue is based on the assessment of individual contract terms. Significant judgment is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the Company's progress under the contract; and whether constraints on variable consideration should be applied due to uncertain future events.

Portfolio Resources Group, Inc.

Notes to Financial Statements December 31, 2018

Principal transactions and commission income. The Company buys and sells securities on behalf of its customers both as agent or on a riskless principal basis. Each time a customer enters into a buy or sell transaction, the Company charges a commission, and if as principal, recognizes a gain. Principal transactions income, commissions and related clearing expenses are recorded on the trade date. The Company has determined that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument, counter parties are identified, the pricing is agreed upon and the risks and rewards of ownership have transferred to/from the customer.

Service fees. The Company charges customers account administrative services fees. Revenue for administrative arrangements are generally recognized at the point in time that performance under the arrangement is completed. However, for certain contracts, revenue is recognized over time for arrangements in which the performance obligations are simultaneously provided by the Company and consumed by the customer. In some circumstances, significant judgment is needed to determine the timing and measure of progress appropriate for revenue recognition under a specific contract.

Other income. The Company recognizes other income earned from account fees from customers and counterparties including clearing reimbursements paid by the clearing firm, and other expenses reimbursed where the Company controls a promised good or service before it transfers the good or service to the customer. In this case the Company is acting in a principal capacity and as a result recognizes revenue on a gross basis.

Cash and Cash Equivalents

Cash includes cash held at a bank. The Company considers investments in money market mutual funds to be cash equivalents.

Income Taxes

The Company records a deferred tax asset or liability based on the difference between financial statement and tax basis of assets and liabilities as measured by the anticipated tax rates which will be in effect when these differences reverse. The measurement of deferred tax assets is reduced, if necessary, by the amount of any tax benefits that, based on available evidence, are not expected to be realized.

The Company evaluates its tax positions for any uncertainties based on the technical merits of the position taken in accordance with authoritative guidance. The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be upheld on examination by taxing authorities. The Company has analyzed the tax positions taken and has concluded that as of December 31, 2018, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements.

As of and for the year ended December 31, 2018, the Company did not have a liability for any unrecognized taxes. The Company has no examinations in progress and is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax liabilities will significantly change in the next twelve months.

Portfolio Resources Group, Inc.

Notes to Financial Statements December 31, 2018

Fixed Assets and Leasehold Improvements

The Company's fixed assets and leasehold improvements are stated at cost net of accumulated depreciation and amortization of \$233,134. Repairs and maintenance are charged to expense as incurred. Upon disposition of fixed assets, if any, the related assets and accumulated depreciation and amortization are removed from the accounts and any gain or loss credited or charged to income. For financial reporting, fixed assets and leasehold improvements are depreciated and amortized using the straight-line method. Depreciation and amortization expense for the year ended December 31, 2018 was \$7,805.

Deferred Rent Liability

The Company amortizes lease payments on the straight-line basis over the term of the lease. The difference between the actual minimum monthly lease payments and the amount expensed is recorded as deferred rent.

Preferred Stock

The Company previously authorized issuance of 100,000 shares of Preferred Stock, par value \$1.00 per share which it designated as Series A Preferred Stock. The Series A Preferred Stock pays a dividend of 3% per annum from funds legally available for distribution. The stock had no conversion rights to Common Stock, had no voting rights except with respect to matters pertaining to its rights and preferences, was redeemable at par by the Company after one year and by shareholder at any time after 5 years and had preference over common stock upon liquidation.

During the year ended December 31, 2018, there were no share transactions recorded by the Company. See Note 10 for the outstanding shares at December 31, 2018.

New Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, Leases. The update requires that, at lease inception, a lessee recognize in the statement of financial condition a right-of-use asset, representing the right to use the underlying asset for the lease term, and a lease liability, representing the liability to make lease payments. The ASU also requires that for finance leases, a lease recognize interest expense on the lease liability, separately from the amortization of the right-of-use asset in the statement of operations, while for operating leases, such amounts should be recognized as a combined expense in the statement of operations. In addition, ASU 2016-02 requires expanded disclosures about the nature and terms of lease agreements and is effective for annual reporting periods beginning after December 15, 2018, including interim periods within that reporting period. Early adoption is permitted. The Company is still evaluating the effect of ASU 2016-02 on its financial statements and on net capital.

3. Transactions with Related Parties

The Company maintains a human resources expense sharing agreement with Investment Resources International Inc., an affiliated company (the "Affiliate"). Pursuant to the agreement, the Company pays 87.5% of the total staff payroll, plus an additional 15% administrative service fee. The Affiliate provides employee services and other services to the Company. Included in compensation

Portfolio Resources Group, Inc.

Notes to Financial Statements December 31, 2018

The Company and the Affiliate are related by common ownership. As of December 31, 2018, there is a due to related party of \$97,325 to this Affiliate.

The Company also has rent expense sharing arrangements with two affiliates, Investment Resources International and Portfolio Resources Advisor Group, to pay a share of the office rent to the Company. For the year ended December 31, 2018 the clearing reimbursements were \$119,022 which are included in service fee and other income.

All transactions with related parties are settled in the normal course of business. The terms of any of these arrangements may not be the same as those that would otherwise exist or result from agreements and transactions among unrelated parties.

4. Due From Clearing Broker

Included in Due from Clearing Broker is \$519,885 which is deposits of brokers' escrow accounts. The Company withholds and deposits into this account 5% of gross commissions, typically up to \$50,000 per broker, although risk evaluations and deposits may vary by broker, as deposits to cover for errors, omissions and customer claims resulting from actions of the broker and not of the Company or its employees.

5. Regulatory Requirements

The Company is subject to SEC Uniform Net Capital Rule 15c3-1 under the Securities Exchange Act of 1934, which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2018, the Company had net capital of approximately \$486,000 which exceeded the required net capital by approximately \$386,000. The Company's aggregate indebtedness to net capital ratio was 1.66 to 1.

The Company does not hold customers' cash or securities. As such it is not affected by SEC Rule 15c3-3.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Portfolio Resources Group, Inc.

We have reviewed management's statements, included in the accompanying Annual Exemption Report, in which (1) Portfolio Resources Group, Inc. (the "Company") identified the following provisions of 17 C.F.R. §15c3-3(k) under which the Company claimed an exemption from 17 C.F.R. §240.15c3-3: (2)(ii) (the "exemption provisions") and (2) the Company stated that it met the identified exemption provisions throughout the most recent fiscal year without exception. The Company's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.
